

NBAA Baseball/Softball Game Report Week #4

Kindergarten

Mariners, Yankees: After two straight rainouts on 6/1 and 6/4, the team started out very slowly and only sent 3 batters to the plate in the first inning and only 7 in the second inning. In the third inning they went through the entire line up and scored 10 times. They keep getting better with every practice and game. Most of the kids want to be in the key six positions and would prefer to not be in the outfield. They are continuing to show a better understanding of the game.

Mariners, Diamondbacks: The team really got on track early and we moved through the lineup three times as we were able to play 4 innings. The other team only had six players which really made the game move along. We had 12 of our 15 players at the game. They all were hitting better and we had at least 7 outs made by either the catcher or at first base. The umpires for all the games to date have been terrific. The parents on my team have been excellent – I have at least 5 or 6 helping at every game and at least 3 during practices.
